## HEAVY FIGHTING CONTINUES

### THREE ATTACKS MEET WITH FAILURE

**German Troops That Succeeded Ground on Missines Ridge Were Driven Back By a Vigorous British Counter Attack --Enemy Suffers Terrific Losses in Men**

(By Associated Press)  
London, April 12.—German troops made a determined attack along the Messines Ridge and succeeded in gaining some ground, says a Reuter dispatch from British Army headquarters in France and Belgium, but the British once again drove them out by a counter attack early this morning. (The Germans are developing great artillery activity in the southern area, the dispatch says. The Bray-Corbie road is being heavily shelled, heralding, it is believed, further infantry attacks. Three attacks which the enemy launched yesterday in great waves near Cric-Dhalette were repulsed with immense losses to the Germans, the ground was strewn with their corpses. This particular part of the battle line in the west has been the scene of terrible fighting for nearly four years. Arrmentieres marked the farthest retirement in this region of the French, British and Belgians in August and September, 1914. Just to the north, near Ypres, the Germans on April 22,

1915, first tossed on the Canadian troops their poisonous gas, and here on Dec. 19, the same year, they drove hard at the thin line of Canadians in a desperate effort to reach Calais. On both occasions the Canadians beat back the enemy and held their lines intact. Nearly the British launched their counter attacks during April and May, the same year.

### INDIAN SOCIETY ORGANIZED

New York, April 12.—A German Indian society has been organized in Berlin according to the Cologne Gazette. A dispatch says that Germany's relations with the near and far east will be greatly expanded for political as well as commercial reasons. One purpose of the society is announced to be the cultivation of "our cultural relations with India."

### Germans Push Back British in the Vicinity of Nue Agliss--Situation on the Western Front Unchanged--Hun Onslaughts on the Lawe River Hurlled Back

#### ALEXANDER SELECTED BY WAR BOARD

(By Associated Press)  
St. Paul, Neb., April 12.—Grover Cleveland Alexander, pitcher of the Chicago National League baseball team, has been selected by the draft board of Howard county as one of the county's quota of drafted men to go to Camp Funston during the five days beginning April 26th.

#### RUSSIAN FLEET ESCAPES TO PETROGRAD

Petrograd, Thursday.—The Russian fleet at Helshingfors, aggregating 200 vessels, apparently has escaped from the menace of capture by the Germans. The first squadron composed of battleships and cruisers has arrived safely at Kronstadt, the naval base of Petrograd. The second squadron, composed of torpedo boats and submarines, is reported off Kronstadt, and the third, made up of transports and vessels of older type, is expected to reach Kronstadt tonight.

(By Associated Press)  
Paris, April 12.—Heavy artillery fighting occurred last night in the vicinity of Hangurb En Santeerre on the front north of Montdidier, the war office announces.

London, April 12.—Attacking yesterday in the neighborhood of Loebsteert, the Germans pushed back the British in the vicinity of Neuve-Aglise. It is announced officially. On the remainder of the northern battle front there is little change. North of Festubert the British repulsed ground by a counter attack. On the front between Lorne and the Lawe river, German attacks were repulsed. Heavy fighting is continuing in the neighborhood of Merivide and Noyt-Berquin.

(By Associated Press)  
With the British Army in France, Thursday.—The German enemy attack continued today along the new battle front north and south of Arrmentieres, from which the British withdrew after the Germans had placed it in a pocket. On the extreme right the Germans today were pounding away against the British defenses at Giverny, which has changed hands numerous times. Messines Ridge and Wytschaete, which are dominating positions, changed

hands several times yesterday and last night. The Germans got a footing in Messines Village and they were still there this morning, but the British were clinging to the west ridge and were keeping the enemy from Wytschaete.

Another 24 hours of constant heavy attack with fresh divisions have given the Germans more ground in the district of French Flanders, but dogged British resistance still holds the key positions at either flank, while Haig's reserves are rapidly coming into battle. Fighting at every step, the British fell back slowly yesterday under pressure of greatly superior numbers along the river bottoms between their pivotal strongholds of Messines Ridge and Giverny, near La Bassée.

Arrmentieres, untamable and full of gas, was abandoned, but not till artillery mowed in the rear could open upon the pursuers. Messines and Wytschaete, once entered by the Germans, were retaken in fierce counter attacks. At Hollebeke, still nearer Ypres, the dense lines of charging Germans were cut to pieces and driven off the field by the British fire. Some further German gain is acknowledged near Ploegsteert wood. But the Poper salient still holds.

### GERMANS WRECK HOSPITAL; THREE KILLED

(By Associated Press)  
Paris April 12.—Shell fire by the Germans long range cannon struck a foundling asylum in the Montreigne district on the southern outskirts of Paris. Three persons were killed and 11 wounded. In the hospital were 30 women with new born babies. One maternity nurse, one patient and one baby were killed, while two probationers, sixteen women patients and three infants were injured. Another shell struck an open air bowling alley and killed a man and a boy and wounded ten other persons.

### AGREE ON IRISH PLAN

(By Associated Press)  
London, April 12.—The Irish convention held the foundation for an agreement of the Irish question which is unprecedented in history. Sir Thomas Plunkett, chairman of the convention says in a letter accompanying a report of that body. The convention did not find it possible to overcome the objections of the Ulster Unionists, says Sir Horace. A majority of the Nationalists, all the Southern Unionists and five of the Southern labor representatives, agreed upon a scheme of Irish self-government which is given in the conclusion reached by the majority, and which, he states, should be enacted into law.

He has turned over to the U. S. District Attorney Coyne evidence for the institution of charges of violating the Mann act and the act forbidding false registration at hotels.

### PROTESTS ENGLAND'S PREPARATION

(By Associated Press)  
London, April 12.—John Dillon, Irish Nationalist leader, in the House of Commons yesterday said he understood that motor cars, machine guns and tanks already had been shipped and were sailing away from the British front toward Ireland. He pleaded strongly against what he termed the "Government guillotine message." The Government agreed to permit the House, contrary to custom, to sit on both Friday and Saturday so as to add two days to the time for the discussion of the man power bill.

## TO PROVIDE FOR SOLDIERS

(By Associated Press)

London, April 12.—A new plan to provide comfortable homes for discharged soldiers by enlisting country people to act as country hosts to the army men has just been launched by the Marquis of Sligo, himself a former captain in the army, and Viscount Kintford, long interested in charitable enterprises. They have formed the Country Host Institution which "hosts" are urged to join.

The scheme has a two-fold object. It aims not only at giving the broken soldiers a life but also to qualify them for farming work, thus increasing the country's food supply.

Briefly the plan requires the host to provide free lodging and board for the man and a good sized garden or farm in which suitable outdoor work can be found for him. The men selected as guests shall be of good character, sober, not suffering from any serious ailments and able to look after themselves.

An allowance of 15 shillings a week will, if required, be paid direct to the former soldier in return for his labor.

The pastime was quickly stopped by Chief of Police E. A. Fowler as the law now protects them at present. It being their season of spawning, the law going on April 1. The going-on of the law prevented the usual dipping them from the shores this year as the ice remained in longer than usual. The boys mistake the fish for shrews which will soon commence to run in large numbers, and are annually caught by many herabouts.

Frederick R. Hason of Derry, who died at Camp Devens with pneumonia, was one of the last draftees sent from here on March 29.

# FRANCE NAILS AUSTRIAS LIES

## Publishes Private Letter of Emperor Charles to President of France Ask- ing for Peace

(By Associated Press)

Paris, April 11.—The following official note was issued by the government today: "Once caught in the cog wheel of lying there is no means of stopping Emperor Charles, who under the direction of Berlin is taking on himself the false utterance of Count Czernin. Herewith is the text of the autograph correspondence of March 31, 1917, of Prince Sixtus D. Bourbon, the Emperor of Austria, brother-in-law to President Poincaré. This note says: 'It is a special pleasure to me to note that despite the adversities no real division of views or aspirations separates many of my empire from France

and I am justified in my keener sympathy for France joined to that which prevails in the whole country will for ever prevent a return of a state of war, for which no blame can fall on me, and with this in mind I beg to convey privately and unofficially to my allies the well founded claims of France to Alsace Lorraine. Having laid my ideas before you and through you to France and England with a view that this might prove ground for an understanding for a preliminary negotiation. Hoping that we shall soon be able together to put an end of the struggle of many men and families in this great war. Signed Charles.

## STRUCK BY TRAIN AT KITTERY DEPOT

A man giving the name of John Lucy and claiming Newburyport as his home, either fell from a train or was struck by a train near the Kittery Depot at the other end of the Portsmouth bridge shortly before 12 o'clock last night.

Mr. A. B. Johnson who lives near the depot discovered the body of the man lying across the track near the depot and finding that he was still alive he lifted him to the platform and then telephoned the local police. Captain Burke sent over the police wagon and Lucy was brought over to the Portsmouth hospital and Dr. J. J. Berry called.

He was unable to give any account of how the accident happened. He was badly cut about the head and body and while his skull was not fractured there are several bad scalp wounds and at one o'clock he had not made much progress and was on the danger list. Lucy has but one arm and has the appearance of a wanderer and also of having been drinking.

## WOMAN LIBRARIAN IN CAMP

The American Library Association, working with the Commission on Training Camp Activities, reports the first appointment of a woman librarian to a camp hospital library. Miss Olga Wyeth, who has been librarian of the University of Illinois will go to Camp Wadsworth, Spartanburg, S. C., to take charge of the library work in the camp hospital there.

The medical officer in command at Camp Doniphan has asked for the same service, stating that the demand is great in the camp's hospital. A trained woman librarian is to take charge of the work in the hospital at Camp Upton on April 1.

## CALL 33 MEN FOR NEXT DRAFT

The Portsmouth District's quota for the second draft will be 33 physically fit white men, or thirteen per cent of the quota. These men will be sent to camp during the five days after April 25, but the exact date has not been set for the New Hampshire men.

In all cases where there are troop movements the dates are set after consultation with the railroad board which routes the movement of all troop trains, and until they set the date the local war board will not notify the men who will be included in the call.

The New Hampshire men will all be sent to Camp Dix, Wrightston, New Jersey, instead of Camp Devens as was anticipated. As in the previous call the men on the emergency list and farmers actually engaged in farm work, will be passed at this time so that to secure the necessary 33 it may be possible to include possibly fifty or sixty men.

No colored men are in this call, and for the third time two colored registrants from this city are passed over, but they may be included in a special call later as the department has asked for all colored lists.

In all probability the local board will reopen several of the cases where men were declared by the District Board ruling as "Shocker Marriages." The men who are demanding the investigation are doing it sorely to prove with out question that they were not married before in this column. The War Board made a thorough investigation of every case, and every one of the cases in which they were overruled, they found that there was absolutely no attempt of evasion of the military service. One man who had announced his engagement months before the country entered into war, and who married afterwards, now included, his refusal to have his case reopened on the ground that he is perfectly willing to enter military service and that in his questionnaire he did not ask for an exemption on account of being married.

## HOSPITAL CROWDED

The Portsmouth Hospital is at present taking care of the greatest number of patients in the history of the institution. They now have 48 patients and every available room, with cots in the reception room and in the upper corridors. With the great increase in population the great need of additional room in the hospital is more and more apparent and something will have to be done soon.

Robinson formerly president of the American International Corporation's shipbuilding company, in a special report made to the Senate Commerce Committee today by Rear Admiral Bowles, assistant to the general manager of the Emergency Fleet Corporation.

Mr. Robinson was removed Feb. 2 and Frederick Holbrook was put in his place. Besides displacing Robinson Admiral Bowles' report said that he also had caused discharge of the works manager and fourteen other high salaried principals and had effected economies in management which enabled the yard to be allotted contracts for sixty more ships besides the 120 originally assigned.

An examination by experts has resulted in a daily saving of \$3500 the

report says. Arrangements have been made with the Philadelphia Transportation services to construct trackway to the yards which will give the place an adequate service in about three months, the report says. An investigation of the Labor Department has resulted in doubting the efficiency and has brought about an "excellent spirit" the admiral reports.

## GREAT RECORD FOR POLL TAX COLLECTOR

Tax Collector Walter H. Page has made a great record in the poll tax collection so far. Under the present law the poll tax of \$2.00 is due the first of April from everybody who is here at that time, the result is that all of the floating population and new men called here to work at the navy yard and shipping plants are liable to the tax.

A remarkable record was made at the Atlantic Corporation where every man was secured, finishing the list of them Thursday. In this the collector was given every opportunity and every possible aid by the Company. Some over 500 men were on the list and every man has settled.

The oldest member of the House of Commons is Samuel Young, member for East Cavan, Ireland, who has just celebrated his 95th birthday. He has lived under four sovereigns, and many of the present Cabinet officers were still unborn when he reached man's estate.

## GROUND GLASS FOUND ON PRISONER

Chicago, April 12.—A box of ground glass was taken from the clothing of Jacob Hendricks, former constable of Aurora, Ill., when he was brought here yesterday for arraignment. When he was arrested with Aurora charged with promoting a lottery to add German soldiers interned at Fort Ogden, Ill., he swallowed wood alcohol.

tion and cattlemen say that hundreds of thousands of calves will be lost this spring because of the condition of the cows. Many ranchmen are shipping their calves to market and for the next two or three years there will probably be a market shortage of young Texas cattle.

West Texas banks have come to the aid of the cattlemen in loaning them money with which to buy feed and also make shipments.

## CATHOLICS WILL RAISE WAR FUND

Washington, April 12.—The Catholic archbishops of the United States and the National Catholic War Council meeting here Thursday, approved a nation-wide campaign at an opportune time for funds to help the war effort in its varied activities. War councils were suggested for every diocese to assist local authorities in preserving decent camp environments, caring for soldiers on furloughs and providing amusements for them within the camps.

At a separate meeting the archbishops deplored the failure of some of the state legislatures in passing prohibition laws, to exempt the exportation and use of wine for sacramental purposes. The archbishops said that the result of this failure had been to place the Catholic church in seeming hostility to the temperance movement.

## WAR HAS CAUSED MANY CHANGES

Amsterdam, April 12.—The war has produced some remarkable changes in the population and relative importance of big German cities. The two principal centers of the munition industries have suddenly mounted to places among the nine largest cities in Germany. Before the war Munich was the third largest city in Germany, ranking immediately after Berlin and Hamburg. Munich has now dropped into seventh place, and Bochum, in Westphalia, Prussia, has risen to third place.

Bochum is the seat of great coal, iron and steel industries. In 1900 it had a scant 6,000 inhabitants. Now it boasts of more than 764,000.

Dresden and Breslau, which were formerly the fourth and fifth cities in Germany, have fallen behind Dortmund and Essen.

## I WONDER

Why the matter of replacing the Dover Point bridge has been dropped so soon?

When the silent policemen will go on the job?

When the several dead trees about the city will get the axe?

Why the Boston and Maine discontinued the crusade against truck walking?

Why navy yard workmen take such desperate chances jumping on the moving train at the depot and the Vaughan street crossing every morning?

Why are the business men that have been giving overweight as was discovered by the state and local officials in this city recently when an inspection of scales was made?

How many cities and towns can make this report throughout the state? If the net repair job on Middle street will be permanent?

When these new policemen will go on the job?

How many people of this city can tell us where the alien is located?

Why the junk men wear their badges on the inside?

# GERMAN "SPY" TAKEN AT THE NAVY YARD

## Armo Seidler an Alien Enemy Arrested by Agent Bradley Department of Justice

Armo Seidler, a German Alien enemy was arrested at the Navy Yard on Thursday evening by H. E. Bradley, the Department of Justice Agent, and he is charged with being an alien enemy under the President's proclamation of April 6, 1917.

He is also charged with being on a government plant, of being within the barred zone without a permit and of failing to register as an alien enemy. His capture is considered quite important.

Seidler came to this city on Feb. 20 from Roxbury and went to work for the Turner Construction Company of Boston, who are engaged in building the additions to the naval prison at the yard, and he has worked for them until his arrest Thursday.

He had a room at 152 Market street in this city, which is also within the barred zone overlooking the river and navy yard, an excellent point of observation.

He was born in Germany and according to his story has been in this country ten years and he is now 33 years of age. He states that he came over from New York some time ago and worked for months in Roxbury before coming to this city and securing the job on the navy yard. He has never declared any intention of taking out his naturalization papers, or did

he register as demanded by law for all alien enemies.

He was while in Roxbury known to the United States Marshall's office, and left the state without securing permission and they have been making a search for him.

Mr. Bradley will take Seidler to Portland today and arraign him before the Maine United States Commissioner, and in all probability he will be interned for the period of the war. That the Department have other evidence against Seidler is understood and his arrest is a very important one and the first of this nature in this city.

## RACE TRACK BITS

Peter Farren, 2:07 3-4, is being touted as a troublemaker in the New England slow classes.

Joe Johnson of Portland has bought Saint Peter, a green trotter by Peter the Great, of J. E. Kent of Newmarket, N. H.

Jimmy Small comes to Dover this week with B. M., 2:07 1-4, Lady Gamage, 2-9 1-4, and others owned by Frank Whitcomb of Springfield.

Every early closing event at Brockton is a sweepstake, with sum of \$3000 added, the amount to be divided in the usual manner.

The Fatherland Farm, campaigners will soon be at Dover, where they will be trained by their owners, Frank L. and Frank M. Burke.

Never in the history of harness sport have the trotters and pacers had so much money to race for, and everywhere the conditions appear to be of a nature that portend a brilliant season.

G. Scott Locke of Concord, N. H., has three young trotters at Dover: My Lord, matinee record 2:18 1-2; a four-year-old by Native King, 2:11 3-4, and a two year old by Peter Giltner, 2:27 3-4.

The early closing events at Combination for which entries will be received April 15 are the American House cup, 2:24 trot, \$1000, the Adams House cup, 2:11 pace, \$1000, the Hotel Essex cup, 2:14 trot, \$1000, the Copple-Plaza cup, 3-year-old trot, \$500.

One of the novel events of the August meeting at Combination Park will be the amateur sweepstakes for the championship of New England, open to trotters that have never won a heat faster than 2:15 1-4 in races or matinees. A silver trophy, value \$100 will be awarded the winner.

Kenneth Driving park, Haverhill, Mass., one of the fastest half mile tracks in New England was sold at public auction April 6, to A. J. Tilton of Haverhill for \$1235. The park, which has been used for forty years, includes sixteen acres and buildings. Plans are said to be under way for a state fair there this year.

Records made with the aid of a wind shield are barred by the rules of harness racing, but horsemen who saw Miss Harris M., 2:06, the champion plying mare, make her record at Atlanta, Ga., last fall, say that the record was made with artificial aid. It was in a special race between two horses owned by the same man, and the mare trotted close behind that B until near the finish, where he pulled out and let her through.

## WITH THE BOXERS

Charlie White, a landmark of the ring who passed away at his home in New York a short time ago, was the most prominent referee of pugilistic contests in this country. In nearly all the big events when championships changed hands or were defended successfully in the eastern states, he was "the third man in the ring." The last big contest in that vicinity where White was the arbitrator, was the Willard-Moran contest in Madison Square Garden, March 25, 1915. He was

The Saucy MITZI HAJOS

OF THE

Past and Present

MITZI IN "THE SPRING MAID", ONE OF THE MOST FREQUENTLY BUSHEDED THEATRICAL PICTURES KNOWN.

MITZI IN THE FIFTY-THREE POUNDS "SARI" COSTUME OF TWO YEARS AGO.

MITZI THE GIRL DISGUISED AS A BOY IN "POM-POM"

The theatre-going public knows their players better than a doll's collection—there's no other style. Many an occupant of an orchestra seat miles from Broadway is as capable a judge as to whether a certain star would fit a new dramatic character as the New York manager who risks his success on the venture. Because Henry W. Savage chose Mitzi as the star for "Pom-Pom," and Mitzi had done successfully, so many styles of things, the public has shown great interest in her apparently different selves. It is said that most letters have been written to producer Savage about Mitzi in "Pom-Pom" than about all his dozens of other players and productions together.

The Mitzi who first appeared in "The Band and Bonnet" was considered to be of the soulful type, usually serious, but with a subtle wit. She was called as was Della Fox of former times, but the Mitzi of "The Spring Maid" discovered a personality of poignancy and Juno's claim all out

of proportion for "and so small." It had almost shyness. In decided contrast was the tiny actress in "Sari" self-reliant, a co-ordinance to her finger tips who made the public realize how great a scope there was for a leading dramatic actress in the best of comic opera.

And now Mr. Savage again has taken what seemed like long chances in daring to set Mitzi in a musical piece of a new style that has already had its influence on later works. It is called "Pom-Pom" and is regarded as a musical drama come opera for its story has moments quite as tense and exciting as in any of the "bought" cycle of plays and its songs are much more numerous and ingenious as well as being of musical tendencies. The surprise of a theatre lover who remembers Mitzi of early days and now sees her as the unrepentant sinner—of a different kind—of a different kind. "Pom-Pom" has been voted most extravagantly. She comes from the most vital of sentiment to imp-like mischief as the breeze blows, and the true puns

found quality of her musical numbers do not seem possible to one who has just so apparently revealed in the broad humor of the "Apache Dance" and her out-thrusting of the theatergoers.

As Mitzi's costume changes so does she change. In trousers she is a rogue of a boy who out-trusts past memories of stage pull-boys; in her petticoats, she personifies the fascinatingly feminine, and in the moments both skirts and trousers are in evidence Mitzi is "divinely" the same about.

There is scarcely one of her talents as a comedienne of operetta that called her play. Mitzi is considered to have grown in a few years to fill the place of a great empty on our heavy handed stage—that of an actress in comic opera.

Mitzi and something of her history, in "Pom-Pom" at the Colonial Theatre, Saturday, April 13, both Matinee and Evening.

## ENSIGN WORRIED OVER REVOLVER

Providence, April 11.—Naval authorities are investigating a complaint by an ensign attached to the submarine base at New London, Ct., against the G. Nichols, 71, chief baggage master at the local station of the New Haven road.

It is alleged the ensign was in charge of the shipment of machinery and other equipment to the base and asked Nichols to have it loaded on an express train. Nichols told the ensign it is said, that officials of the road would not permit this.

In the course of an argument over the matter between Nichols and the ensign, the former is said to have revealed a revolver lying on the baggage-master's desk. Nichols said it was an empty pistol that had been lost and given over to him. He denied making any threat and said the gun was revealed when he removed a pile of orders to read them.

## Are You Doing Anything To Help Win The War?

The Fuel Administration says we must save Fifty Million tons of coal in 1918. They say the kitchen range is largely responsible for the coal shortage last year. Estimates show the average family uses about 1000 pounds of coal monthly for cooking. To produce gas for the same amount of cooking only about 300 lbs. are used at the central station. You must realize that by the use of gas you are helping save the coal. We are always ready to show you how you can save both coal and money by the use of gas.

has also sustained the following losses:  
One-third of her total mileage of railways, amounting to 21,530 kilometers (13,380 miles). Seventy-three per cent of the total iron production. Eighty-nine per cent of the total coal production.

Two hundred and sixty-eight sugar refineries, 318 textile factories, 674 breweries, 133 tobacco factories, 1635 distilleries, 241 chemical factories, 615 paper mills, 1973 machine factories. Territories which now become German formerly brought in annual revenue amounting to \$45,235,000 rubles, and had 1890 savings banks.

## TELEGRAPH NEWS

(By Associated Press)  
Amsterdam, April 12.—As an example of "how the war breeds millionaires," the Socialist Vorwarts states that in 1913 there were 195 millionaires in Kiel whereas there are now 202, while multi-millionaires have increased from 15 to 47. It takes only \$250,000 to be a millionaire in Germany.

New York, April 12.—Plugs in Greater Berlin and in all other huge Prussian cities may be used for the making of sausage, the Berlin Telegraph recently announced. The paper says this is because nearly all of the plugs have been slaughtered.

Beit, April 12.—It is announced that all Germans in Slam, men and women have been deported to India.

Amsterdam, April 12.—The gathering of war metals in Germany have completed their raids on church bells, roofs, kitchens and door handles and have now discovered a mine of wealth in the leather, leather of pens and rulers and orders have been issued for the confiscation of all such metal on behalf of the war materials department.

London, April 12.—Shipping interests have made strong representations to the British foreign office against Argentina's new war tax of about 10 cents a ton on all overseas vessels entering Argentine ports. It is alleged that the tax will be a heavy burden upon cargo vessels sent to the River Plate to carry away the 2,000,000 tons of wheat purchased there for the allies.

Canton, China, April 12.—A chapter of the American Red Cross society has been formed here through the efforts of Mrs. Frank Doubleday who has been visiting Canton on Red Cross matters.

Tientsin, April 12.—Five thousand Chinese victims of last autumn's flood are being cared for by the American Red Cross Food Relief Committee, under the chairmanship of the American Minister, Dr. Paul Reinsch, aided by the American troops stationed here. In an improvised camp, on the edge of the German concession, protests by certain residents of Tientsin against the dumping of these refugees here have been rendered pointless by the efficient administration of the camp by Col. W. P. Wilder which has prevented its becoming a menace to the health of the community.

Within a tract perhaps five acres in extent, hundreds of huts have been constructed out of reeds and mud for the housing of the unfortunate, it. Allen White, civil engineer from Iowa, designed the huts, using only material at hand or which could be gathered without cost. They are arranged in regular series all facing south, with spaces between constituting the streets of a miniature village.

Santiago de Chile, April 12.—Deputy Don Cornelio Saavedra, who has just returned from a seven-months' trip in the United States, has predicted in an interview that the United States is planning to make its relations with Chile closer after the war.

"The situation between Chile and the United States is very satisfactory," said Mr. Saavedra. "Persons of the first rank, such as Mr. McAdoo are trying to bring the two countries closer together and it is certain that as soon as the war is over a large amount of capital will come into Chile from the United States to promote industry and commerce."

Amsterdam, April 12.—The most desirable gifts nowadays in Germany are things to eat and wear. The following is a list of the gifts presented by the people of Salzburg at a benefit recently to Herr Bratt, the leading tenor of the local opera company: Seven pairs of boots, three suits of clothes, eleven packages of coffee substitute, fifty-one packages of food, one sausage four feet long, \$300 in cash.

New York, April 12.—Large contracts will shortly be placed in England for supplies of boots to the American army in France. It is announced, in anticipation of these requirements, leather supplies to manufacturers of civilian shoes have been curtailed and stringent restriction will come into force early next month.

## LADIES! DARKEN YOUR GRAY HAIR

Look years younger! Use Grandmother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

## THIS YEAR'S April Showers

can't bring much more than we now have in the way of flours--rye, whole wheat, Graham or half-and-half. Along with the general wetness is our whetted appetite.

But there's also the flower of the Army to take care of so it's still save, save, save. Don't overlook the saving of time and energy, either, because these are the big factors in producing enough money to save for the war and leave enough over to spend, so we won't be weakened or behind the times after the war.

It's a fateful month. Every war we've been in has begun in the month of rain, which may be why the clouds now hang over certain parties that reign. True enough, every war cloud has a German silver lining but the devil is in for his dew.

## NEW PASTOR WILL TAKE UP DUTIES

Rev. R. S. Tuttle Says That Portsmouth Seems Like Home.

Rev. R. S. Tuttle, the newly appointed pastor of the local Methodist church arrives in this city tomorrow to take up his duties.

Mr. and Mrs. Tuttle motored to this city yesterday from Ayer, Mass., and said they were delighted at the prospect of making their home in this city. Mr. Tuttle stated that they were both glad to get back near the sea water as it was the only place that seemed like home to them. Mrs. Tuttle was born and brought up in Portland, Me. and his boyhood home was on the Pacific coast. Mr. Tuttle paid out a compliment as to its beauty and said another thing that makes a westerner feel at home here now is the tremendous push and industry of the city and its surroundings at the present time. He spoke of meeting a traveling man at Camp Devens the other day who told him that Portsmouth is now one of the busiest cities for its size in the country. Mr. Tuttle said he would add that its future holds a promise of greatness that would warrant substantial improvements and growth.

Mr. Tuttle has been at Camp Devens, Ayer, Mass., almost from its opening, representing the Methodist church within the cantonment, coming into intimate touch with the boys in the Y. M. C. A. buildings, the barracks and in the great base hospital, and is well acquainted with their life and work.

Because of this experience and the fact that Portsmouth is so largely occupied in the work of the war, Mr. Tuttle is to begin his pastorate at the Methodist church with a series of Sunday night sermons bearing on some phase of the world conflict.

The first in the series of "Sunday Night War Sermons" will be: "Is Christianity a Failure?" His theme on Sunday morning will be "Excelsior."
